

The Faculty of Chemistry and Pharmacy of the Julius-Maximilians-University of Würzburg invites applications for the tenured faculty position:

Professor of Organic Chemistry (W2, m/f/x)

to be filled as soon as possible.

The professorship is intended to complement the research topics of the Institute of Organic Chemistry and the Center for Nanosystems Chemistry in the areas of synthetic, mechanistic, biomolecular and supramolecular chemistry. The ideal candidate is a visible early career molecular scientist, who is active in an emerging area of Organic Chemistry or Chemical Biology, has demonstrated interdisciplinary expertise, and proven ability to attract competitive external research funding. Active participation in ongoing and planned collaborative projects within the faculty is expected. Possible future research directions include but are not limited to the design, synthesis and functional analysis of biomolecular and/or supramolecular systems and processes, emerging topics and innovative methods in biological chemistry and organic functional materials based on natural or bioinspired artificial building blocks.

The responsibilities include research and teaching as well as the promotion of early-career scientists. The successful candidate will contribute to teaching of organic chemistry in bachelor and master degree programs (including state examinations), as well as medicine and food chemistry study programs. The University of Würzburg puts emphasis on the excellent supervision of students and doctoral candidates, and expects high levels of engagement from teaching staff.

Candidates are expected to have a relevant university degree, high pedagogical aptitude, a demonstrated ability for scientific research as usually proven by an excellent Doctoral degree, in addition to a Habilitation or proof of equivalent scientific achievements and independence in the field of organic chemistry (e.g. through a successful Junior or Assistant Professorship or equivalent performance in a non-university setting). According to Article 10 paragraph 3 of the Bavarian University Personnel Act, an appointment to civil service can only be made to a candidate under the age of 52. However, exceptions are possible in urgent cases.

The University of Würzburg aims to increase the proportion of women in research and teaching and therefore strongly encourages applications from suitably qualified female academics. Severely disabled applicants will be given preference in the case of equivalent qualifications.

Applications should be sent electronically with the appropriate documents (cover letter, the provided standardized data registration form (.XLS), dated and signed CV, references, relevant certificates and transcripts, list of publications including the five most important publications, list of courses and lectures given, outline of planned research, teaching concept) by 23.03.2022 via e-mail (w2-oc@uni-wuerzburg.de) in PDF format to the Dean's Office of the Faculty of Chemistry and Pharmacy.
