# Registration form for research internships (chemistry M.Sc. program)

Matriculation number

Last name

First name gender (m/f/d) *m*

Born on in

Contact

Email *...@stud.uni-wuerzburg.de*

Group Starting date

Lab tutor

Please choose

Remarks:

I hereby register for the internship. I will read and comply with all relevant safety regulations (fire protection regulations, laboratory regulations, operating instructions, etc.), which are posted in the laboratories or available for download on the homepage of the Institute of Organic Chemistry. In particular, I will inform myself about the hazard potential of the chemicals involved before starting any experiment.

Würzburg, (no signature needed, just insert the date)

Please send this form to christian.stadler@uni-wuerzburg.de. Use your student email address for sending. Please do NOT print and scan the document. It does not need to be signed.

IMPORTANT: Don't forget to register for the corresponding module/assessment on WueStudy. Otherwise, it's technically impossible to enter your credits. (Be careful with the timing. Do not register at the very start if you are not 100% sure that you will finish before the end of the same semester.)
