

Inauguration Symposium

of the DFG Research Unit “Light-Induced Dynamics in Molecular Aggregates” (FOR 1809)

jointly with the Colloquium of the GDCh Unterfranken on

“Photophysics and Chemistry of Chlorophyll Complexes”

Date: **Thursday, 8 November 2012**, Time: **16:30 Uhr (note the earlier start!)**

Hörsaal C (Zentralbau Chemie)

Prof. Dr. Donatas Zigmantas
(Chemical Physics, Lund University):

“The Nature of Coherence Beatings
in Biological Complexes”

Prof. Dr. Dieter Jahn
(Institut für Mikrobiologie, TU Braunschweig):

“Radicals, hot electrons, and unusual catalyses
of enzymes of heme and chlorophyll biosynthesis”

The scientific program will be followed by a small reception.

Organizers: Prof. Tobias Brixner
(Speaker, FOR 1809)

Prof. Jürgen Seibel
(Ortsgruppenvorsitzender, GDCh)
